

AFRICA CAN'T HEAR WHAT THE WORLD IS SAYING

200 Million people with a hearing loss

9 Million hearing aids are manufactured annually.

Current provision is less than 1 Million.

A vibrant sunset over a savanna landscape. The sky is a gradient of orange and yellow, with a bright sun low on the horizon. Silhouettes of various animals, including elephants and giraffes, and a few trees are visible against the bright background.

THE SUN DOES NOT
FORGET A VILLAGE
JUST BECAUSE IT IS
TOO SMALL - *African Proverb*

Abundance of sunshine

Natural resource

Easily accessible

SUN POWERED RECHARGER

Solar powered Battery recharger

Batteries lasts for 2-3 years

10 000 units sold

3 000 school children

Environmentally friendly

It costs 10% of the current H/A

DEAFTRONICS VALUE

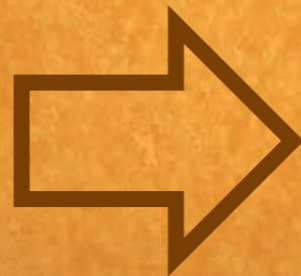

Speech development and listening skills
